

THE LOCAL AUTHORITY BLUEPRINT

How Home Service Businesses in Hampton Roads

Get Found on Google Without Spending on Ads

Introduction

If you own a home service business in Virginia Beach, Chesapeake, or Norfolk, you have probably heard that you need to "be on Google." But here is what nobody tells you: being on Google is not enough. You need to be found.

There is a difference between having a website that exists and having a website that shows up when a homeowner searches for help on a Tuesday night.

This guide walks you through the four pillars that actually get local businesses found. It is the same system we use for our clients. And it starts with something you already have -- your Google Business Profile.

Pillar 1: Your Google Business Profile

Your Google Business Profile (GBP) is your front door. Period. It is the first thing people see when they search for what you do. And most business owners treat it like an afterthought.

If your GBP is not optimized, you are invisible in the Map Pack -- where 80% of local searches end up.

The 5-Minute GBP Self-Audit:

- ☐ Is your business category specific? ("Fence contractor" not "contractor")
- ☐ Are all 10 service categories filled?
- ☐ Is your phone number correct? (757 area code)
- ☐ Do you have 10+ recent reviews with responses?
- ☐ Have you posted a photo in the last 7 days?

If you answered no to any, you are leaving leads on the table.

Pillar 2: A Website That Ranks

A drag-and-drop website with no SEO strategy is not a marketing asset. It is an online business card.

For Google to show your site, it needs: clear title tags + meta descriptions + H1 headings (what you do); city pages (where you do it); LocalBusiness schema (that you are real).

Most home service sites miss at least two of these.

Pillar 3: Email That Brings Customers Back

Most businesses only hear from customers when something breaks. The most profitable ones have customers who keep coming back because they remember who to call.

A simple monthly email with tips and seasonal reminders can double your repeat business. You do not need 5,000 people. You need 50 people who have already paid you.

Pillar 4: Facebook Presence That Works

Facebook is not for getting discovered. It is for being remembered.

2-3 posts per week showing your work, seasonal reminders, and customer spotlights keep you top-of-mind.

How It All Fits Together

The four pillars are one system.

GBP --> Map Pack

Website --> Converts visitors to leads

Email --> Turns one-timers into repeat buyers

Facebook --> Keeps you remembered

When all four work together, customers find you.

Next Steps

Start with Pillar 1. Your GBP is free, fast, and has the highest ROI.

Each pillar compounds on the last. The Essential plan builds one at a time. The Top Tier builds all four from day one.

Either way, start where you are and make a plan for where you want to be.
